# Course Breakdown

The 240 hour Accredited TEFL Course is broken down into lessons and units to make the content easier to digest.

You'll have interactive quizzes throughout the course to check your progress and you can attempt these as many times as you need.

## How to Make Sense of Teacher/ Learner Needs

### UNIT 1

Understanding your students' language abilities and why they want to learn English. Get to know the basic principles behind TEFL teaching.

## How to Understand and Use Grammatical & Teaching Terminology

### UNIT 2

By the end of this module, you'll know your present continuous from your present simple tense no problem. Most of all, you'll be familiar and confident with grammatical terms.

We know that grammar can be intimidating for new teachers – it won't be at the end of module 2!

## How to Plan Your Syllabus & Lessons

### UNIT 3

Being the best teacher you can be is down to planning. On this course you'll get the planning techniques that will not only save you time but will ensure that your lessons run smoothly.

You'll gain students' respect which of course is great for reviews (especially if you are teaching online).

## How to Teach Grammar

### UNIT 4

Now that you know grammatical terms, you'll fly through this module on how to teach it. Breaking down your students' English levels, you'll know which grammatical term to teach and how to teach it. You'll get so much useful information about how to prepare engaging grammatical building block lessons which work. Watching your students progress will be so exciting!

# Course Breakdown

## How to Teach Vocabulary

### UNIT 5

Did you know that there are around 171,000 words in the English language? Don't worry, you'll only be asked to teach a few hundred of those! From beginner restaurant vocab like, MENU, PLATE, GLASS, MAINS to advanced business such as, INCOME, EXPENDITURE, RECRUITMENT. You'll study the tools to teach vocabulary and use them effectively so that your students can use it in the right context.

## How to Teach Pronunciation

### UNIT 6

Help your students speak English confidently by practicing pronunciation. This is the primary reason that they want to learn English from you. As a native speaker pronouncing a word like 'enough' is simple for you, not so with many other nationalities. On this course you'll learn modern techniques to help your students sound as fluent as possible.

## How to Teach Reading & Listening Skills

### UNIT 7

These are called 'Receptive skills' because the student is receiving language. By the end of this lesson, you'll know the most effective ways to engage students in reading English and how to write it. This includes setting listening tasks to music, radio and recordings, to reading letters, emails, Facebook posts both inside and outside the classroom. Oh yes, you'll be setting a lot of homework for your students!

## How to teach Writing & Speaking Skills

### UNIT 8

These are called 'Productive skills' because students produce language. You'll learn plenty of useful ideas about how to get your students up on their feet and chatting to you about hobbies, politics or story telling. You'll also get help with how to teach your students to write English – at all levels, from favorite foods, to the economy in Spain.

## How to Teach English for Specific Purposes

### UNIT 9

Your students have a reason why they want to learn English. You'll learn how to differentiate these different types of students and how to tackle their lessons. For example, how to teach teenagers, or business people or exam classes to help students get into universities in the US or UK. You'll end lesson 9 armed with a breadth of knowledge about who you are teaching, why you are teaching them and what you should teach them.

## How to Move from Learning to Earning

### UNIT 10

Here you'll get up-to-date tips on the current employment market. Once you've secured your first job, in this module you'll receive details about how to get the best career 'teachers toolkit' ready to jump into any job online or abroad.
